

Field Reference

Every field captured across Company Profile, Product, ICP (Ideal Customer Profile), and Persona records — what each one means, its data type, and an example value from the current dataset.

Source: src/knowledge-center/data.ts

Generated: 2026-08-18

Scope: Data model fields only (not UI behavior)

Contents

1. **1.** Company Profile — 25 fields across 6 groups
2. **2.** Product — 34 fields across 6 groups (identical field set per product)
3. **3.** ICP (Ideal Customer Profile) — 33 fields across 5 groups
4. **4.** Persona — 5 identity fields + 15 sections / 33 fields (identical structure per persona)

1 · ENTITY Company Profile

One record per workspace. Everything the AI has learned about the company — used to ground research across Products, ICPs, and Personas. Defined by the CompanyProfile interface. A single instance, COMPANY_PROFILE.

Company Basics 5 fields · short single-line facts

FIELD	TYPE	DESCRIPTION	EXAMPLE
Company Name	Text	Legal / brand name of the company.	B2B Rocket
Website	Text	Primary domain, shown as a clickable link in the summary view.	b2brocket.ai
Category	Text	Market category the company competes in.	Sales & Marketing Outreach Software
Company Size	Text	Employee headcount range.	51–200 employees
Annual Revenue	Text	Estimated ARR / revenue band.	\$8M–\$15M ARR

Elevator Pitch 2 fields · headline pitch & summary

FIELD	TYPE	DESCRIPTION	EXAMPLE
Elevator Pitch	Text (long)	One or two-sentence pitch, shown in quotes on the summary card.	"B2B Rocket gets outbound sales teams sending personalized, AI-assisted sequences the same day they sign up..."
Product / Service Summary	Text (long)	One-paragraph plain description of what the product actually does.	An AI-native outbound sending platform that handles domain/mailbox provisioning, warmup, personalization...

Positioning Statement 5 fields · each is one clause of a single generated sentence

These five fields stitch together at render time into one sentence: "We help [weHelp] who struggle with [whoStruggleWith] by providing [byProviding]. Unlike [unlike], we uniquely [weUniquely]."

FIELD	TYPE	DESCRIPTION	EXAMPLE
We Help...	Text	Who the target customer is.	B2B sales teams and agencies running outbound at volume

Who Struggle With...	Text	The problem that customer faces.	<i>manual prospecting and personalization that doesn't scale past a handful of reps</i>
By Providing...	Text	The solution / mechanism offered.	<i>AI-drafted, personalized sequences plus done-for-you infrastructure...</i>
Unlike...	Text	The alternative being displaced.	<i>legacy sales-engagement tools that take weeks to configure...</i>
We Uniquely...	Text	The differentiated approach.	<i>combine infrastructure automation with AI personalization in a single workspace...</i>

Deep Dive 5 fields · strategic narrative

FIELD	TYPE	DESCRIPTION	EXAMPLE
Core Problem	Text (long)	The central pain the company solves, in narrative form.	<i>Reps spend hours per week hand-personalizing outreach, and quality drops as volume increases...</i>
Differentiators	Text (long)	What sets the company apart from alternatives.	<i>Same-day sending infrastructure, AI personalization built into the core workflow...</i>
Buying Motion	Text (long)	How deals typically get evaluated and closed.	<i>Product-led trial for smaller teams, sales-assisted for mid-market accounts...</i>
Proof	Text (long)	Headline evidence / result customers cite.	<i>Reference customers report 2–3x reply rates within the first 30 days...</i>
Dream Customer	Text (long)	Narrative description of the best-fit customer.	<i>A mid-market B2B SaaS company with 5–20 reps running outbound...</i>

Market & Positioning 6 fields · tag / chip lists

FIELD	TYPE	DESCRIPTION	EXAMPLE
Industries	List	Industries the company sells into.	<i>B2B SaaS, Sales & marketing technology, Professional services, Fintech</i>
Products	List	Names of the product lines (mirrors the Product entity names).	<i>Outbound Sending Platform, AI Personalization Engine, Infrastructure & Deliverability</i>
Competitors	List	Named competitive alternatives.	<i>Outreach, Apollo, Instantly, Smartlead</i>

Key Selling Points	List	Top reasons customers buy.	Same-day time-to-first-send, AI personalization at scale...
Trust Risks / Objections	List	Common concerns or objections raised by buyers.	"We already have a sales engagement tool", Deliverability concerns at high volume
Notable Customers	List	Named reference customers.	Northwind Analytics, Fernway Health, Cedar & Co Consulting

Deal & Sales Cycle 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Deal Overview	Text (long)	How a typical deal starts and expands.	Typical deal starts as a self-serve or lightly-assisted trial on one sending package...
Sales Cycle	Text (long)	Typical time-to-close, with drivers of variance.	2–3 weeks for self-serve/mid-market; 4–6 weeks when a security review is involved...

Company Profile also carries an internal per-field *confidence score* (0–100) on select fields — shown as a small badge next to the label wherever the AI's certainty is worth flagging.

Product

One record per product line the company sells (e.g. "Outbound Sending Platform"). Every product carries 5 identity fields plus the same 29-field research profile — defined by `ProductDetail` and its `fields`: `ProductField[]` array, so the schema below applies identically to each product.

Identity 5 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Name	Text	Product name.	<i>Outbound Sending Platform</i>
Subtitle	Text	One-line descriptor shown under the name.	<i>Core multi-channel outbound product</i>
Description	Text (long)	Longer plain-language description.	<i>The core workspace for planning, personalizing, and sending outbound sequences...</i>
Match %	Number	How strong a fit this product is overall (0–100).	<i>94</i>
Fields	List	The 29 research fields below, each with an optional per-field confidence score.	— see below —

Core Definition 8 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Category	Text	Product category / market segment.	<i>Sales engagement / outbound automation</i>
Use Cases	List	Concrete jobs the product is used for.	<i>Cold email at scale, Multi-channel sequencing, Rep onboarding & ramp</i>
Key Features	List	Standout capabilities.	<i>AI-personalized sequences, Multi-sender rotation, Built-in warmup...</i>
Problems Solved	List	Specific problems the product removes.	<i>Manual personalization doesn't scale, Deliverability drops at volume...</i>
Value Proposition	Text (long)	One-sentence value statement.	<i>Get reps sending personalized sequences the same day...</i>
Time To Value	Text	How quickly a customer sees results.	<i>Same day for first send; 2–3 weeks to full sender ramp</i>
Ideal Customer	Text	Short description of the best-fit buyer for this specific product.	<i>B2B teams with 5–20 reps running structured outbound</i>
Market Maturity	Text	Where the category sits in its lifecycle.	<i>Growth stage — category is well established, still consolidating</i>

Competitive 4 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Competitors	List	Named products competing for this use case.	Outreach, Salesloft, Instantly
Buyer Objections	List	Objections raised specifically against this product.	"We already have a sales engagement tool"
Switch Triggers	List	Events that make a prospect consider switching to this product.	Reply rates plateau on current tool
Objection Rebuttals	List	Prepared responses to the objections above.	"Migration takes one afternoon, not weeks"

Commercial Terms 6 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Deal Type	Text	Commercial structure of the deal.	Subscription, seat + volume based
ACV	Text	Annual contract value.	\$18,000
MRR	Text	Average monthly recurring revenue per account.	\$1,500 avg. per account
Contract Length	Text	Standard contract term.	Annual, with monthly self-serve option
Renewal Rate	Text	Percentage of accounts that renew.	91%
LTV	Text	Lifetime value estimate.	\$54,000 (3-yr avg.)

Proof & Validation 6 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Proof Points	List	Quantified outcomes customers achieved.	2–3x reply rate lift in first 30 days
ROI Metrics	List	Metrics used to justify ROI.	Hours saved per rep per week, Cost per meeting booked
Case Studies	List	Named case studies with headline result.	Northwind Analytics — 3x pipeline in 60 days
Industry / Social Proof	Text	Third-party validation (awards, review scores, press).	Featured in G2's Sales Engagement category, 4.6/5 across 200+ reviews
Tagged Case Studies	List	Case studies tagged by segment for targeted use.	Northwind Analytics — #midmarket #saas

Unsolved Impact	Text	Honest note on what the product doesn't yet solve.	<i>Reps still lose time qualifying replies manually before booking</i>
------------------------	-------------	--	--

Messaging 5 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Elevator Pitch	Text	One-line pitch for this specific product.	<i>Personalized, multi-channel outbound sending the same day you sign up.</i>
Positioning Statement	Text (long)	Formal positioning statement (for/who/is/unlike format).	<i>For B2B sales teams outgrowing manual outreach, the Outbound Sending Platform is...</i>
Messaging Do's	List	Recommended messaging tactics.	<i>Lead with time-to-first-send, Use concrete reply-rate numbers</i>
Messaging Don'ts	List	Messaging pitfalls to avoid.	<i>Don't claim to fully replace reps</i>
Messaging Hooks	List	Ready-to-use opening lines / hooks.	<i>"Sending the same day you sign up"</i>

Every field in the research profile may carry an optional per-field *confidence score* (0–100), shown as a badge next to the field label.

ICP (Ideal Customer Profile)

One record per target-account segment, linked to a Product via `productId` and to one or more Personas via `icpId`. Defined by the `IcpDetail` interface — 33 fields across 4 content groups plus identity.

Identity 4 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Name	Text	Segment name, usually role + firmographic tag.	<i>VP Sales / Head of RevOps — Mid-Market B2B</i>
Industry Tag	Text	Short industry label shown on the card.	<i>B2B SaaS</i>
Match %	Number	Overall fit score (0–100).	<i>92</i>
Product	Reference	The Product this ICP is linked to.	<i>Outbound Sending Platform</i>

Identity & Fit 4 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Summary	Text (long)	Plain-language summary of the segment.	<i>Mid-market B2B teams running multi-sender outbound who need faster time-to-send...</i>
Fit Reasoning	Text (long)	Why this segment fits, in narrative form.	<i>Closest match to the core use case — owns outbound quota, actively evaluating tools...</i>
Buying Triggers	List	Events that prompt this segment to start evaluating.	<i>Missed a quarterly pipeline target, Just hired new reps who need to ramp fast</i>
Exclusion Criteria	List	Traits that disqualify an account from this segment.	<i>No dedicated outbound function, Sub-10 employee team</i>

Firmographic Filters 9 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Target Industries	List	Industries this segment targets.	<i>B2B SaaS, Sales & marketing technology, Professional services</i>
Company Size	List (bucketed)	Employee-count buckets, chosen from a fixed set: 1–50, 51–200, 201–1,000, 1,001–5,000, 5,000+.	<i>51–200, 201–1,000</i>
Revenue Range	Text	Target revenue band.	<i>\$5M–\$50M ARR</i>

Geographies	List	Target regions.	North America, UK & Ireland
Funding Stage	List (bucketed)	Funding stages, from a fixed set: Bootstrapped, Seed, Series A, Series B, Series C+, Public.	Series A, Series B
Growth Stage	Text	Company lifecycle stage.	Growth
Business Model	Text	How the target company makes money.	B2B SaaS, subscription
Tech Stack Signals	List	Tools/technologies that signal fit.	Salesforce or HubSpot CRM, LinkedIn Sales Navigator
Decision-Making Unit	Text (long)	Who's involved in the purchase decision.	VP Sales (economic buyer) + Head of RevOps (technical evaluator)

Pains & Goals 4 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Pain Points	List	Problems this segment experiences.	Reps spend hours per week manually personalizing outreach
Business Goals	List	High-level goals the segment is chasing.	Hit pipeline targets without adding headcount
Operational Goals	List	Day-to-day operational goals.	Reduce ramp time for new reps
Use Cases	List	How this segment would use the product.	Replace manual prospecting workflow

Intelligence & Targeting 10 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Example Companies	List	Real/illustrative companies fitting this segment.	Northwind Analytics, Vantage Metrics, Coretech Software
Competitive Displacement Fit	Number %	Likelihood of displacing an incumbent tool (0–100).	78
Maturity	Number %	How mature/ready this segment is to buy (0–100).	84
Market Size	Number %	Relative size of this segment vs. total addressable market (0–100).	46
Intent Signals	List	Observable signals that an account is in-market.	Job posting for SDR/BDR roles, Recent Series B raise

Incumbent Tools	List	Tools currently used that this product would replace.	Outreach, Salesloft
Department Size	Text	Typical size of the relevant department/team.	8–25 reps
Outreach Accessibility	Text	How reachable this segment is for outbound.	High — active on LinkedIn, responsive to peer benchmarking data

ICPs also carry an optional per-field *confidence* map, and each ICP links forward to its Personas (see next section).

Persona

One record per buyer role within an ICP, linked via `icpId`. Defined by `PersonaDetail` — 5 identity fields plus a fixed set of 15 sections holding 33 fields total. Every persona in the dataset uses the same section/field structure (values differ; shape doesn't).

Identity 5 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Name	Text	Persona / role title.	<i>VP Sales / Head of RevOps</i>
Department	Text	Department the role sits in.	<i>Sales</i>
Match %	Number	Overall fit score (0–100).	<i>92</i>
ICP	Reference	The ICP this persona belongs to.	<i>VP Sales / Head of RevOps — Mid-Market B2B</i>
Subtitle	Text	One-line summary of what this person cares about.	<i>Owns the outbound quota and is judged on pipeline generated, not activity.</i>

Overview 3 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Role Summary	Text	What this person owns day-to-day.	<i>Owns outbound pipeline generation for a growing mid-market sales org.</i>
Reports To	Text	Who this role reports to.	<i>CRO or CEO</i>
Team Size Managed	Text	Size of team this person manages.	<i>8–25 reps</i>

Responsibilities 1 field

FIELD	TYPE	DESCRIPTION	EXAMPLE
Core Responsibilities	List	Main duties of the role.	<i>Own pipeline generation targets, Hire and ramp new reps</i>

Goals 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Primary Goal	Text	The single most important goal.	<i>Hit quarterly pipeline targets without adding headcount</i>
Secondary Goals	List	Supporting goals.	<i>Improve rep ramp time, Keep messaging consistent across the team</i>

Pain Points 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Primary Pain	Text	The dominant frustration driving interest.	Reps spend hours per week hand-personalizing outreach, and quality drops as volume increases.
Secondary Pains	List	Additional frustrations.	Inconsistent messaging across reps, New reps take too long to ramp

Challenges 1 field

FIELD	TYPE	DESCRIPTION	EXAMPLE
Organizational Challenges / Constraints	List	Structural obstacles working against this persona (labeled "Organizational Challenges" or "Constraints" depending on persona).	Budget scrutiny on new tool spend, Rep adoption resistance to new tools

Decision Making 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Role In Decision	Text	This person's role in the buying committee.	Economic buyer — final approval
Other Stakeholders	List	Other people involved in the decision.	Head of RevOps (technical evaluation), Reps (adoption feedback)

Current Solutions 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Tools In Use	List	Tools this persona currently relies on.	Outreach or Salesloft, Salesforce/HubSpot CRM
Satisfaction Level	Text	How satisfied they are with current tools.	Moderate — plateaued reply rates

Buying Behavior 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Evaluation Style	Text	How they typically evaluate new tools.	Runs a structured pilot with 2–3 reps before full rollout
Budget Cycle	Text	How/when budget gets approved.	Approves within quarterly tooling budget

Buyer Psychology 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Primary Motivator	Text	The core emotional/professional driver.	<i>Fear of missing pipeline targets</i>
Risk Tolerance	Text	How risk-averse this persona is when adopting new tools.	<i>Moderate — wants proof before full commitment</i>

Messaging Guidance 3 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Opening Hook	Text (long)	Suggested opening line for outreach.	<i>"Your reps are spending hours a week hand-personalizing emails and still missing quota..."</i>
CTA Style	Text	Recommended call-to-action approach.	<i>Request a 15-minute demo</i>
Objections They Raise	List	Objections specific to this persona.	<i>"We already have a sales engagement platform"</i>

Account Intelligence 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Trigger Events	List	Events that prompt this persona to act.	<i>Missed a quarterly pipeline target, Just hired new reps who need to ramp fast</i>
Tech Stack Signals	List	Tools/signals indicating fit (persona-level).	<i>Salesforce or HubSpot CRM, LinkedIn Sales Navigator</i>

Prospecting & Search 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Search Keywords	List	Job-title keywords for prospecting searches.	<i>"VP Sales", "Head of Revenue Operations"</i>
Firmographic Filters	Text	Firmographic filter string for list-building.	<i>51–1,000 employees, B2B SaaS</i>

Representative Examples 1 field

FIELD	TYPE	DESCRIPTION	EXAMPLE
Example Accounts	List	Real/illustrative named accounts matching this persona.	<i>Northwind Analytics, Vantage Metrics</i>

Outreach Strategy 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Best Channel	Text	Most effective outreach channel.	Email primary, LinkedIn for warm-up
Best Time To Reach	Text	Best day/time window to reach this persona.	Tuesday–Thursday, 8–10am local time

Qualification 2 fields

FIELD	TYPE	DESCRIPTION	EXAMPLE
Warm Lead	Text	Signal that qualifies a reply as a warm lead.	Asked about pricing or replied requesting more detail on personalization quality.
Meeting-Ready	Text	Signal that this lead is ready to book a meeting.	Explicitly asked for a demo and mentioned a specific pipeline target or rep count.

Select persona fields (e.g. Role Summary, Primary Goal, Risk Tolerance) may carry an optional per-field confidence score.
